

Corporate Health & OPD Wellness

The **360°** Cashless Outpatient & Preventative Health Ecosystem for Modern Enterprises

95%

Closing the critical 95% gap in corporate healthcare that traditional Group Health Insurance ignores.

The Critical Healthcare Blindspot

While insurance covers hospitalizations, the real healthcare needs of your employees remain ignored, unaddressed, and unpaid.

01

Painful Out-of-Pocket Reimbursements

Employees must collect physical bills, fill out tedious forms, and wait 30–45 days for approval, leading most to abandon the process altogether.

02

Daily Neglect

95% of real employee health needs are completely unaddressed by traditional policies.

03

Low Benefit Utilization

Traditional wellness programs sit unused on intranet portals with single-digit adoption rates.

04

Productivity Bleed

Minor ailments that go untreated due to friction compound into absenteeism, presenteeism, and team burnout

What Your Workforce Actually Needs

Today's employees need accessible, affordable and instant outpatient care for everyday health—empowering them to stay healthy, productive and engaged.

₹8,000+
per Employee

The average annual out-of-pocket OPD expense incurred by Indian corporate employees.

62% Reduction
in Sick Days

Observed when employees have structured, instantaneous access to primary outpatient care.

3X Higher
Talent Retention

Documented among organizations offering comprehensive, daily-utility wellness benefits.

70%
of Organizations

Post-Pandemic have actively expanded health budgets to prioritize mental health and preventative wellness (FICCI Survey).

OPD benefits are not a perk or cost center,
They are a high-ROI workforce productivity investment.
